Site Management

EXPLOSIVE DEMOLITIONS THROUGHOUT THE MIDDLE EAST

Throughout the Middle East Explosives Engineers working for IndEx have worked on, planned or managed numerous explosives demolitions including projects in Dubai, Abu Dhabi, Libya, Jordan, Qatar and Saudi Arabia,

IndEx realise the middle East is a fast moving, vibrant area where fast, professional, cost effective solutions are required combined with safe practice.

With tight deadlines to meet, sometimes leaving only a few weeks to prepare a building, it is imperative that the design of the collapse and preparation works are planned and executed with speed and precision. Using local labour and resources, IndEx project managers work with the client, Police, Civil Defence and local authorities to maintain the high standards of quality control, programme timings, site safety and security

Past projects in the Middle East
